

This is the mountains and Stewart Creek in front of my lower cabin. My cabin is at the left lower corner, of course you can not see the cabin. Also my claims are up this creek. Lots of power going to waist here. All I have to do is lay in bed and cast a line in the creek and get my breakfast of trout or greyton. How would you like to have this scenery in front of your mansion. Lots of goats on those mountains.

This picture was taken at midnight so it aint very cleazr. There lots of bare down here. I killed 3 this summer and I was after one this fall. A big fellow. But did not get him.

This is our lower camp about seven miles from our upper where we have to haul our wood from. This is the bear skin I sold it for \$100. It sure was a bute. Bailey is going to have his picutre too as he helped get her.

(Bauley is the dog)
